BRICS MATH.COM+2020

The 4th international online mathematics competition —
BRICS MATH.COM+ for students from classes 1-12

A competition that brings children from 7 countries together

Trial round: 19 October – 15 November

Main round: 16 November – 20 December

What is **BRICSMATH.COM+**?

BRICSMATH.COM+ is a large annual international online mathematics competition for students of grades 1–12. Since 2020, the geography of the competition has been expanding, now students from 7 countries will be able to take part in it: Brazil, Russia, India, China, South Africa, Indonesia and Vietnam. The competition tasks are available in the official languages of each participating country.

The purpose of the competition is to cultivate interest in mathematics and develop logical reasoning skills, as well to unite children from different countries.

In 2020, the BRICSMATH.COM+ will be held for the fourth time and is dedicated to the 12th BRICS Summit which will take place in Russia.

Feedback about us

Great and stimulating for children's learning.
(Mirelly Santos, teacher, São Paulo, Brazil)

Thanks to the organizers for such interesting tasks! My Daughter takes part with great pleasure. I am proud of the success she achieved. With you we grow and gain knowledge!
(Safonova S.V., parent, Russia)

I am very happy to work on this website. My child is getting the knowledge of different fields and he has become more confident, excited and happy. Thank you so much.
(DP Trivedi, Parent, Shree Narayana International school, Vadodara, Gujarat, India)

The development of children's intelligence is conducive to the training of logical thinking.
(Wang Hongxin, teacher, Shenzhen, China)

The website is very attractive and well programmed, making me wish to have my own one day and it creates passion to seek information. I tend to picture it as a model to show how great, fun and fantastic education is. I really honor the developers!
(Noluthando Basi, learner, Durban, South Africa)

Dates of **BRICS**MATH.COM+

Trial round

19 October – 15 November

- The trial round gives the students an opportunity to practice before the main round.
- Students can solve the tasks an unlimited number of times during the trial round.
- The results of the trial round do not affect the main round.

Main round

16 November – 20 December

- In the main round, students will have only 60 minutes to complete the tasks. They can solve the main round on any day during the competition.
- It is not mandatory to complete the trial round tasks before solving the main round.

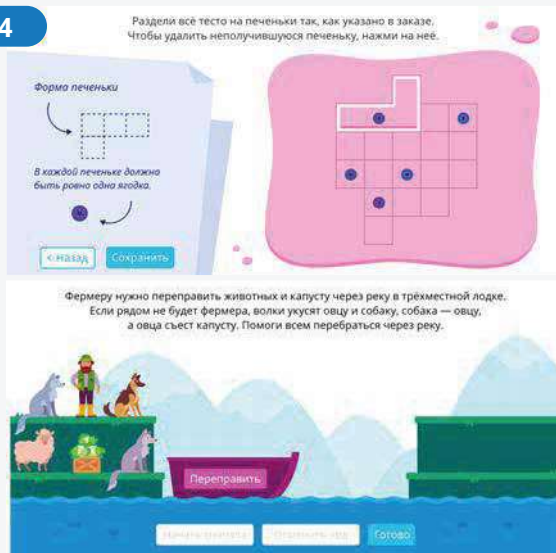

The uniqueness of the **BRICSMATH.COM+** competition

- Any student from each of the 7 countries can take part in the competition BRICSMATH.COM+. All they need is an electronic device with an Internet connection.
- The competition consists of 10 colourful interactive mathematics tasks. The tasks on logical and spatial thinking do not require an in-depth knowledge of the school mathematics books.
- The tasks are available in Portuguese, Russian, English, Hindi, Marathi, Chinese, Vietnamese and Indonesian.

Examples of the tasks

Classes 1-4

Blueberry cookies *(Difficulty level: difficult)*

Skills: The relative position of objects in space and on the surface. Planning the progress of solving the problem. Basic arithmetic.

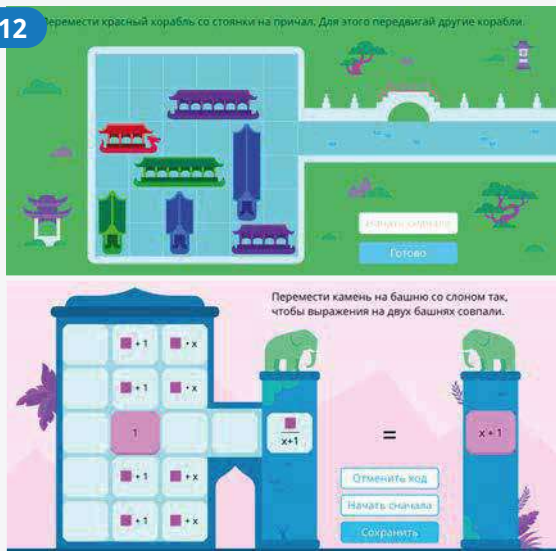

Section: Spatial relationships. Visual geometry. Geometric shapes. Formation of ideas about the meta-subject concept of "shape". Shapes in geometry and in the surrounding world.

Crossing the river *(Difficulty level: difficult)*

Skills: Analysis of the received information. Logical and algorithmic thinking. Simple algorithm. Drawing up the final sequence (chain) of objects, numbers, geometric shapes, etc. according to the rule. Logical reasoning. Completing, writing, and solving a simple algorithm.

Section: Data handling.

Classes 5 - 12

Dragon ship *(Difficulty level: easy)*

Skills: The relative position of objects in space and on the plane. Logical and algorithmic thinking, spatial imagination.

Section: Spatial Relations and Spatial Thinking.

The mystery of the ancient temple *(Difficulty level: difficult)*

Skills: Addition, subtraction, division, multiplication. Identifying the unknown component of an arithmetic action. Logical and algorithmic thinking.

Section: Spatial relations and spatial thinking. Arithmetic operations.

BRICS MATH.COM+

will take place in October–December 2020

To participate you need:

- A computer or a tablet.
- Internet access.

Teachers and Parents:

- Register their students on the website.
- Choose the class and language.
- Can print out or save logins and passwords in PDF file and distribute it to their students.

Students:

- Log in on bricsmath.com using their logins and passwords.
- Solve the tasks.

Results and Awards

BRICSMATH.COM+

Upon the completion of the BRICSMATH.COM+ competition, all students and teachers will receive certificates, that will be available in their personal accounts on www.bricsmath.com.

- The winner's certificate will be awarded to the students who will score the maximum points during the competition: 100 points in grades 1-4, and 80 points in grades 5-12 grades.
- The first 1000 students who will score the maximum score and solve all the tasks of the main round in the shortest possible time will receive the Amazon Pay voucher as a gift.
- All other participants will receive awards according to the points they score.
